

# SURFACING

## Poured in Place Rubberized Surfacing:

- EPDM surfaces use recycled rubber particles in the base mat.
- Impact and Shock absorbing properties in accordance with ASTM F2479-07 and CAN/CSA-Z614A.
- Variety of colours available.

## Artificial Grass Turf:

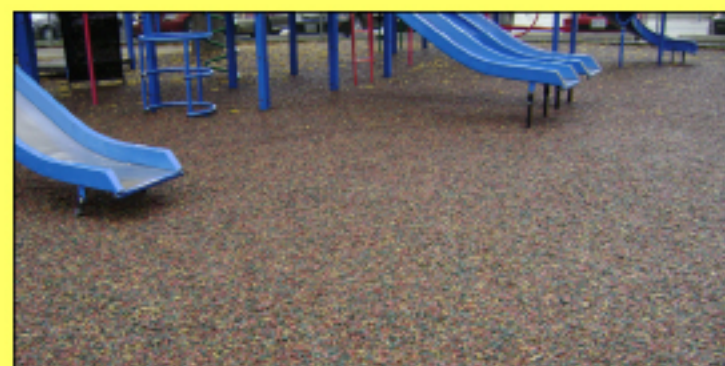

- Can be used under playground areas for fall height protection.
- Replaces grass areas that will not grow due to high traffic area.
- Eliminates mowing, watering, fertilizing and other harmful pesticides & other maintenance required
- UV protected to maintain the appearance and durability for many years.

**Rainbow Turf®** is ADA accessible; wire and fiber free made from 100% recycled tire-buffing mulch.

**Rainbow Turf®** has been successfully tested for the ASTM F 1292-92 test for safety surfaces in and around playground equipment and the ASTM F 1951-99 test for handicap accessibility.

**Rainbow Turf®** offers a low maintenance, attractive and safe alternative to the headaches and liabilities created by the use of sand and pea gravel, wood mulch or engineered wood fiber.

**Rainbow Turf®** is Anti-Fungal; Adverts Nesting of Insects; Non-Absorbent; Non-toxic; Does not deteriorate, fade or float and will not splinter. It is a long lasting, durable product and in its poured form provides a permanent natural appearance to beautify any area.
